

NANCY GREEN design

Dear Members of Hoboken City Council,

The Hudson is perfect as she is.

To be present in her mighty tidal beauty, gaze out at her width, contemplate her depth, and be part of her flowing history—is a gift.

A gift to Hoboken.

Our lives are busy, our town is bustling, our world is disordered. When my mind is crowded, and I just have to get away from my desk and desktop, I can always depend on Hoboken's majestic slice of the Hudson for respite, for renewal, for her awesome beauty.

She needs no adornment or enhancement or distraction. She needs no explanation.

I'm an artist and I value public art, but there is precious little nature in Hoboken. Please don't obstruct our glorious view of the Hudson.

Best Regards,

Nancy Green
